

Android 14 - Setting Up Eduroam Wi-Fi

eduroam Setup

Setting up Eduroam Wi-Fi requires an existing internet connection.

Please follow these steps to set up eduroam:

Open the Google Play Store and download the app “geteduroam”.

Android 14 - Setting Up Eduroam Wi-Fi

eduroam Setup

"Open the “geteduroam” app that you downloaded from the Play Store in the first step.

Search for „FAU“ and select „Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU)“.

Android 14 - Setting Up Eduroam Wi-Fi

eduroam Setup

A blue dialog box with the title "Login required". Below the title, it says "Please enter your username and password." There are two input fields: "Username" with the text "ab12cdef@fau.de" and "Password" with masked dots. At the bottom, there are two buttons: "Cancel" and "Log in".

Log in using your IdM username followed by @fau.de and your corresponding password (example: [ab12cdef@fau.de](#)).

The configuration will be carried out. Please make sure to “save” the eduroam configuration afterwards.
