

For managed devices, the changes may be configured centrally.

Please ask your administrator whether you need to follow the instructions below.

Setting up Eduroam Wi-Fi requires an existing internet connection (e.g., LAN, other WLAN).

Please follow these steps for setup:

Open your web browser, such as Safari, and go to the website <https://go.fau.de/1bi-h>

# iOS - Setting Up Eduroam Wi-Fi

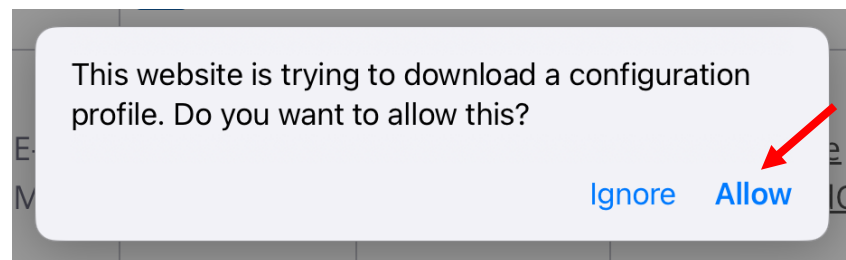

## eduroam Setup

### Configuration profiles

VPN	 <a href="#">eduVPN</a>		
Wi-Fi	 <a href="#">eduroam</a>		
E-mail	 <a href="#">FAUMail</a>	 <a href="#">Exchange (only macOS)</a>	 <a href="#">Exchange (iOS/iPadOS/visionOS)</a>

! To use some profiles under iOS, iPadOS and visionOS, a [Unlock code](#) be set up!

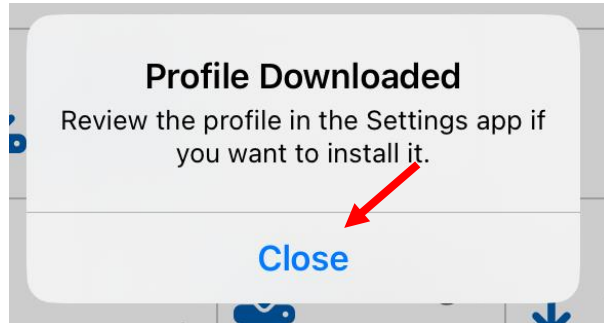

Select the eduroam configuration profile to download it.

Then confirm the download of the configuration profile by tapping "Allow".

To apply configuration profiles, your iPad or iPhone must have a [passcode](#) set.

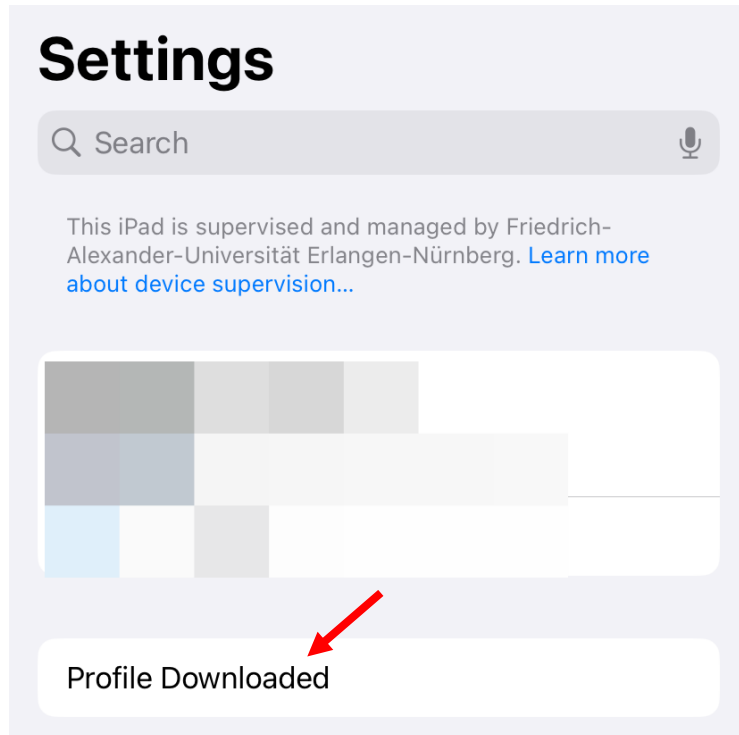

You will be prompted to enter your passcode at various steps. For clarity, this is not described in detail in the instructions.

Close the "Profile Downloaded" dialog by tapping "Close".

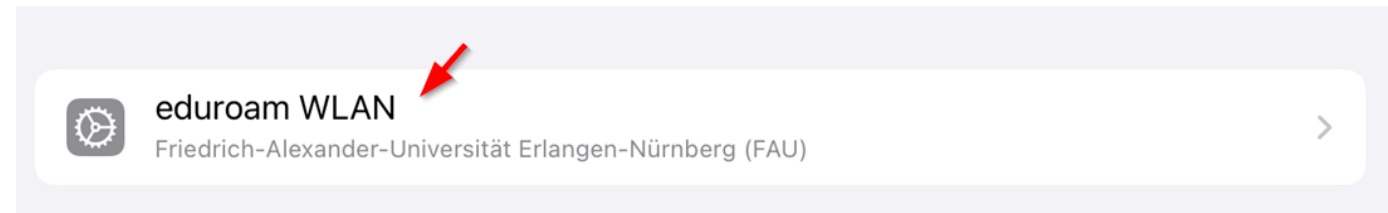

To review and install the downloaded configuration profile, please go to your device's Settings.

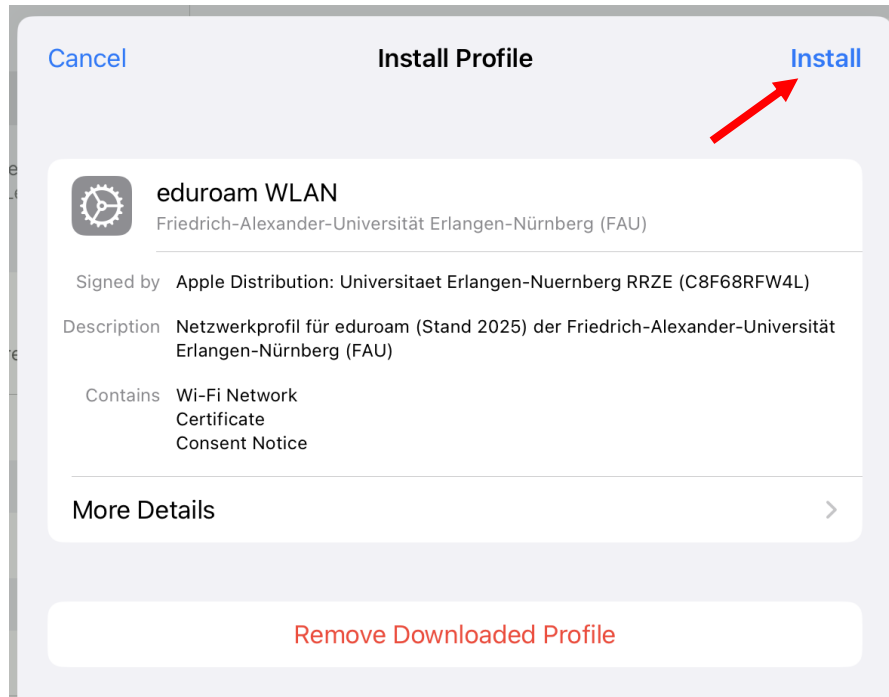

In the Settings menu, a notification will appear on the left indicating that a profile has been downloaded.

On the right side, tap the "eduroam WLAN" profile to continue with the installation.

## eduroam Setup

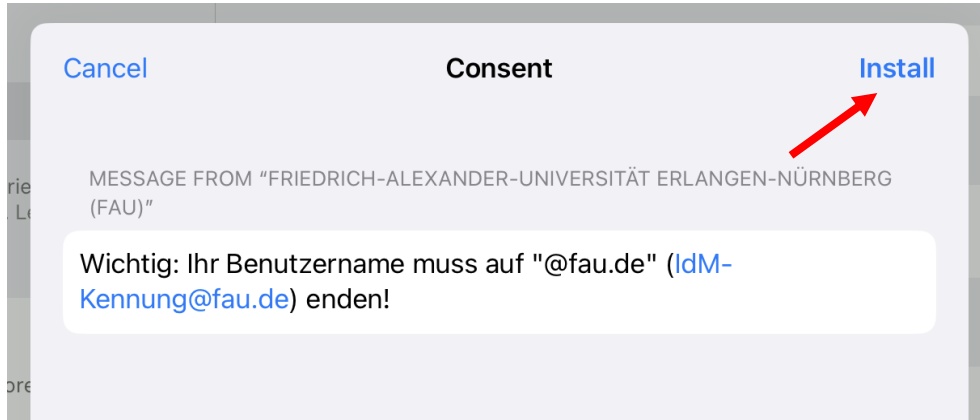

Review the signature and description of the configuration profile.

Once you have completed the review, tap "Install" to finish the configuration.

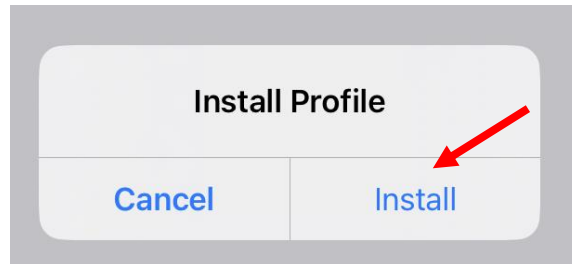

# iOS - Setting Up Eduroam Wi-Fi

## eduroam Setup

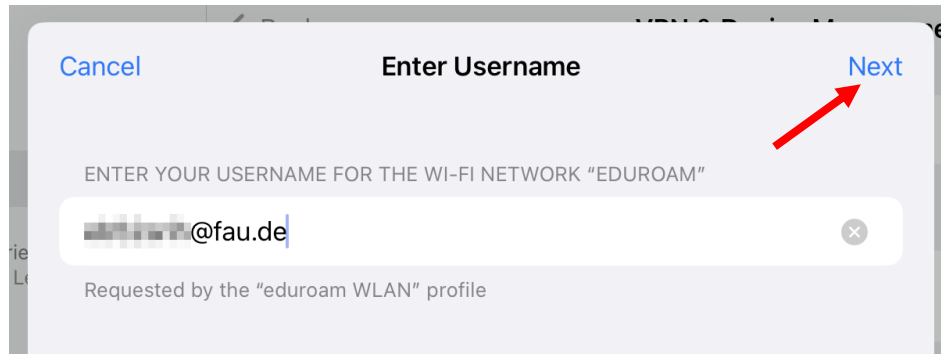

In the "Consent" screen, tap "Install" again.

A subsequent "Install Profile" screen will appear — confirm this as well by tapping "Install".

# iOS - Setting Up Eduroam Wi-Fi

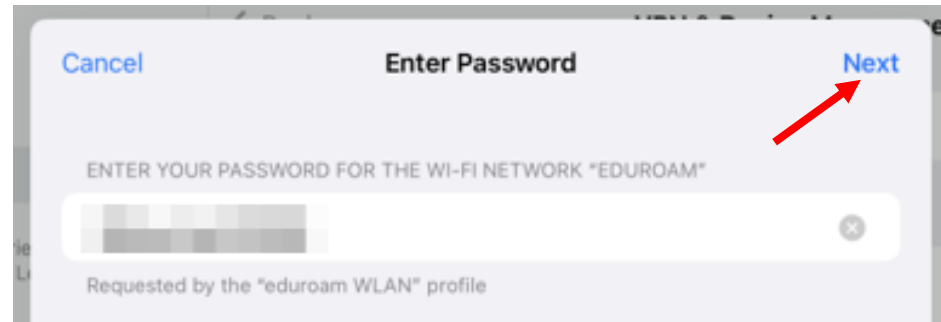

## eduroam Setup

Log in using your IdM username followed by @fau.de and your corresponding password. (Example: ab12cdef@fau.de)

Tap "Next" to proceed to the next screen.

You will now need to enter your IdM password again and confirm by tapping "Next" once more.

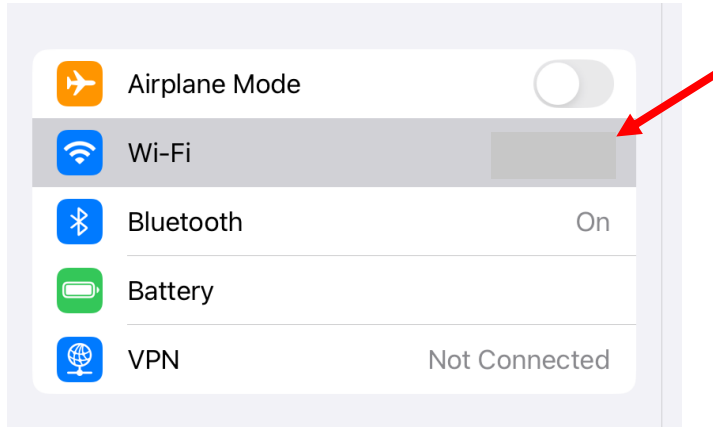

A final screen titled "Profile Installed" (no screenshot) will appear — please confirm by tapping "Done".

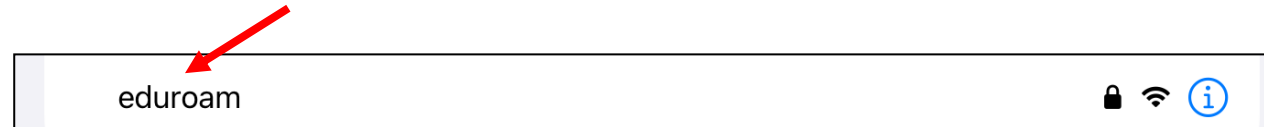

The configuration profile is now installed.

## eduroam Setup

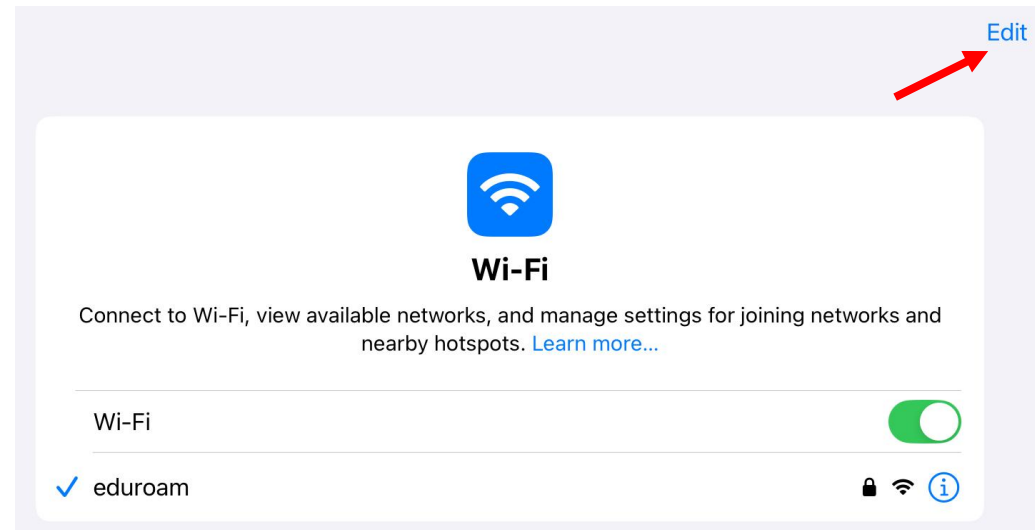

You can now connect to the "eduroam" Wi-Fi network. In the Settings, tap on Wi-Fi and select eduroam under "MY NETWORKS" on the right side.

A successful connection to the eduroam Wi-Fi network is indicated by the checkmark next to eduroam in the Wi-Fi settings.

The configuration is now complete.

This guide was created using iPadOS version 18.4.1 and may differ slightly on other versions, such as on an iPhone.
